Subject: letter to C. Tudan

Hi Brian,

As you might imagine, my first two weeks on the job I have been living in my office (family and furniture only just arrived in Kingston). I have had many projects, reports, and meeting deadlines, and thus, the office has been rather cluttered. Under the mess, I discovered today the letter you forwarded to me. I am getting on it.

Hassan continues to skirt around the MIP-1 issue, and avoid conducting himself professionally and fairly regarding issues, and thus I still cannot cooperate pertaining to the MIP-1 patent. It is unethical, and he does not give me a means to sign such papers unconditionally without compromising myself (i.e. closing termination and mini-contract).

Christopher Tudan
